

# Vertical Type Mirror Monocular Microscope-Overview

As a truly flexible and versatile range of microscopes, JC LAB BIMC-08A series represents an entry-level microscope that can be used for many years to come. It is equipped with all basic features and all you need to start learning to use a scientific instrument: 18mm field of view, up to 640x maximum magnification, several options concerning stages, focusing, condenser and mirror reflection system.

## Optical system:

Finite Optical System

## Observation tube:

Monocular

## Inclination:

Adjustable inclination

## Eyepiece(s):

H5x (6mm), WF 10x (14mm) & WF 16x (16mm) , lockable

## Nosepiece:

Triple revolving nosepiece with click stops

## Objective classification:

Achromatic, DIN

## Objective information:

4x NA=0.1 , 10x NA=0.25 , 40x(s) NA=0.65 ,

## Stage:

Plain stage with sample clips

## Stage size:

90 x 85mm

## Condenser:

N.A. 1.25 condenser with iris diaphragm

## Focus mechanism:

Separated Coaxial Coarse and Fine Adjustment

## Illumination:

Plano-concave mirror and fork

## Accessories included:

Dust Cover

## Packing Size:

250 x 160 x 300mm (L x W x H)

## Weight (kg):

1kg

\*Standard packing: Foam + Paper box

\*All of our microscopes are covered by a 5 year warranty on mechanical components and 2 year warranty on electrical components
