

Magic Sand (hydrophobic sand)-Overview

Magic Sand begins as normal looking sand, until it's dyed and coated with a substance that repels water. This coating keeps the sand dry even after it has been dumped into a container of water. Build castles and other structures under the water, then simply pour the water off when you're finished and the sand is still dry! You can use it for fun science experiments again and again! Colors vary.

Code	Color	Packing
PS1-12B	Blue	100g
PS1-12G	Green	100g
PS1-12O	Orange	100g
PS1-12P	Pink	100g
PS1-12R	Red	100g
PS1-12V	Violet	100g
PS1-12W	White	100g
PS1-12Y	Yellow	100g

***Standard packing: Amber Glass bottle**
