

## Spatulas (palette knives)

Single high quality, laboratory palette knife spatula with hardwood handle. Knife is flexible with parallel sides. Designed for use in professional laboratories, but is an ideal choice for science classrooms and household use. Useful for restaurants and kitchens, for bakery cake decorating, home crafts and more. Great for material scooping, smoothing, spreading or separating, for sample transferring and mixing of liquids, powders and pastes

Material: Stainless steel + Wooden

Code	Blade Type	Blade Length	Blade width	Overall Length
